SCIENCE**SHOW**FOR**KIDS**.COM

WHO WE ARE

We are educators, **Off-Broadway performers, moms, dads**, partners, and friends who are passionate about making science accessible through engaging, joyful learning experiences.

Inspired by children for over 8 years, we support education leaders in driving measurable academic outcomes, closing achievement gaps, and strengthening **inclusive practices (IEPs)**, all while **maintaining high-quality STEAM programming**.

We focus on the earliest years—when we know we can make the greatest impact. **Our STEM programs bring science to life through meaningful early education**, essential health lessons, and practical tools for navigating new and challenging situations. **Along the way, we foster socialization, build confidence, and create a genuine sense of joy.**

Anna Telminova, CEO
Crazy Science Corp.
